Reading and Writing Process in Pre-school

We always wonder how teachers teach the girls the reading and writing process. They start with a project that includes all the subjects. Some groups of Pre - school began working about " Antioquia", including " La Feria de la Flores " and "La Antioqueñidad ". For example : With "La Feria de las Flores" project , in Math they could count flowers , in Spanish the teachers did dictations to the girls. Later with a story they started reading only looking at the pictures. When they finished the project they made a show with music , the girls danced, sang, and imitated some typical events (" trovaron").

EDITORIAL

It is probable that in the project "Men and Women What's The Difference?" You have probably thought about those groups or individuals who have historically been discriminating women causing damage to themselves and also to their relatives you have had the same feeling of anguish or imagined it. It is very hard to know that women like us have suffered abandonment, humiliation, insults, and isolation just because they were born women. My feeling grows stronger every time I reflect about discrimination, women, adolescents and young girls suffering day by day even in our surroundings. You may think that it can't be true, but there is "discrimination" around us. Haven't you seen how many maids are treated? They get tired and suffer quietly because their work is not appreciated. They rarely hear kind or praising words. There are people who destroy or despise what they do.

Another example of discriminated women is found close to you. Where? In your own classroom, in your school.... You just have to pay attention of how some of your classmates are isolated: only because they are thin or fat, fast or slow workers, sympathetic or serious. They are badly treated and left aside.

It is also possible that you have discriminated yourself in a certain moment when you separate yourself from others just because you think you are not as pretty, intelligent or as rich as others. Women often do this without taking into account that beyond anything, they are wonderful people. God's creation gifted with nature's beauty.

I hope this project has helped you not only to know stories of distant women, but to ask yourself if you discriminate. Also to reflect and discover your responsibility, as a woman, who can help other women, who are close to you and that in a certain moment have been discriminated.

KANSAS TRIP

Do you know about the biggest experience in Marymount school?

Three months ago on May 24, fifth graders went to Kansas to a little town called Atchison. We stayed there 5 weeks and we had a very good time. We went with two teachers Amparito Duque and Elisa Quintero. We stayed in a beautiful academy.

Two girls shared a room. This was very nice because we knew better our partner and we shared lot of things with her and with all our friends..

Our bedroom had a bathroom for two rooms.

We also went to Worlds of Fun and we rode many roller Coasters like Mamba. We had a very good time.

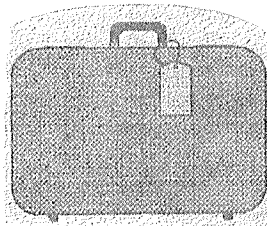

We also went to many interesting museums and we learned many things.

In the zoo there were many beautiful and interesting animals. It was very big and it had many typical and strange animals from different countries of the world.

Kansas is a big state and it has many interesting places like museums, parks and shopping centers. Every day we went to study to the academy in two classes. We were split in groups, ten in each one.

In Kansas we learned to share with our friends, to be responsible, to grow in values and to be united. We think it is important that all the girls can have this experience because they can grow and learn a lot.

n LUCKY (Britney Spears)

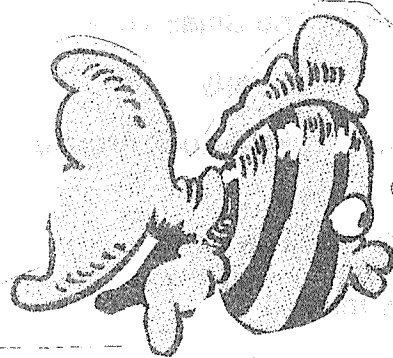

This is a story about a girl named Lucky...
Early morning, she wakes up
Knock, knock, knock on the door
It's time for makeup, perfect smile
It's you they're all waiting for
They go...
Isn't she lovely, this Hollywood girl?
And they say...

CHORUS

She's so lucky, she's a star
But she cry, cry, cries in her

Lonely heart, thinking
If there's nothing missing in my life
Then why do these tears come at night?
Lost in an image, in a dream
But there's no one there to wake her up
And the world is spinning
And she keeps on winning
But tell me what happens when it stops?
They go...
"Isn't she lovely, this Hollywood girl?"
and they say...

By: Melissa Botero,

"Best actress, and the winner is... Lucky"
"I'm Roger Johnson for pop news standing outside the

she is so lucky, but why does she cry?
if there is nothing missing in her life
why do tears come at night?
