QUINTO

A DIFFERENT DAY

Manuela Palacio González - Manu (5°B)

On a normal day I woke up, I ate the delicious pancakes my mom cooked for me every morning, and then I went to school. But in that moment rare things started to happen. Nobody was there, so I went back to my house, I smelled a delicious pie, so I went to the kitchen. I asked my mother what kind of pie it was, when she turned, I saw her different. She had her body and her face very different. I thought I was confused, and I thought I was in another house. So I looked at the house number, and it was my house. In that moment I said to myself something rare is happening. So I thought maybe my sister could help me, I went to her bedroom and started telling her what happened, but she didn't listen to me because she was in the Computer, so I turned her chair to look at me, but she was another person too.

ALL MY FAMILY WAS REPLACED!!!

The only person who could help me was Mr. Balloon. He was the best scientist around the world. I had to go to California where he lived, and then find him by myself. At 6:00 I found him in a little town called Quekerson, I told

Mr. Balloon everything that happened and he told me that it was a very rare case. He started investigating. At 9:00 he found the solution. He told me that I had to wait until 12:00 to give them a substance called kuakeredson medical that helps return everything to normal. So I went quickly to the airport to arrive in time to my house. I arrived at my house at 11:45.

My mom's name was Surrogate, she had cooked turkey for us, I was afraid to eat because I didn't know them, but I had to do it for my parents. I asked my mother if I could help her with something and she said yes. So I got the glasses and at 11:58 I put the kuakeredson medical in all the glasses. And at 12:00 they drank it, and they became my real family.

I felt very happy in that moment because my family was normal, they did not remember anything, so I preferred not to tell them. The next day I was afraid because maybe the same things that happened yesterday will happen again, but I got up because I had to check if things were normal. I went to the kitchen and fortunately it was a normal day. So I went to school, and all my friends were there, I had a nice day because right after school my mother took my sister and I to the new adventure park. There were animals, roller coasters and everything was full of adventures.

I HAVE THE BEST FAMILY EVER!!
