Manuela Núñez Calderón - Manunu (3°B)

I knew about a spy bunny he was my pet until the two best robbers of the city take it. They work for Lous the crazy scientist. He wants to take all the control of the animals to attack everyone except him and the robbers. He try to take the control of my bunny and something came out bad, my bunny was inteligent, fast and a super spy, he wore sun glasses, a black jaket and a stereo face. The robbers try to catch him, so he jumps out of the place. The robbers try to find him but they can` t find him. He was on the top of the Everest, which was a spies` school, but he already was a spy so the teacher gave some things that spies use.

Meanwhile in Lou's basement, they were ready to take the control of the animals thanks to a machine. The spy bunny came back, the robbers and Lous try to take the control and try to catch him but the bunny jumped by the machine the second time and put a bomb on the machine. He broke the machine. Lous and the robbers went to jail, the animals are happy and the bunny is the best spy in the world.
